HALF MILLION WPA FEDERAL FUNDS TO BE SPENT IN COUNTY

39 Projects Underway to Be
Completed by Next
July

Expenditure of federal funds totaling \$515,026 in Lake county is contemplated for completion between now and July 1 of the 39 projects already in operation here, District Director Mogens Ipsen of the WPA announced today. This figure will be increased, he said, as additional projects go into operation.

Ipsen saw no cause for alarm in a recent announcement that \$20,000,000 previously allotted to Illinois for WPA work had been withdrawn by the Federal government, asserting that the withdrawal would not handicap operating projects nor prevent additional work from starting.

"It is my understanding that sufficient allotments may be expected from Washington to carry the work program until July 1 and our work plans are being drafted with this in view," the director declared.

Antioch Fire Chief Tells Local People to Guard Xmas Trees

Declaring that the residents of Antioch and community have an enviable fire record for the last two months, Chief James Stearns of the Antioch Fire department asks that the local citizens continue to be careful during the Christmas season.

Chief Stearns points out that the firemen have not been called in the last two months as the Antioch region has been without a fire. This was remarkable, he says, because there is a tendency to overheat stoves and furnaces during the colder days of November and December which often cause serious fire damage.

"With the presence of Christmas trees in the homes of our community today, it is best to guard against their catching fire from hot electric light bulbs and burning candles by careful watching," Chief Stearns says.

WARREN TRAMPLES SEQUOITS, 30-18; ELA HERE FRIDAY

Antioch Reserves Drop an
Over-time Tilt, 26-21; Ela
Seeks Indian Meat

Warren's Blue Devils stayed in a tie for the Northwest conference league basketball lead by stinging Antioch's Sequoits with the Friday the Thirteenth hoodoo last week over in Gurnee, 30 to 18.

Portegys, the lumps forward, was master of ceremonies by swishing the net for a trio of counters from the field and two from the chalk line from personal fouls. W. Phillip and Wells each rung three field counters for the runner-up scoring laurels. Brogan was Antioch's high pointer with five points. Thill, in a wild scramble, was knocked cold, and had to be escorted from the court.

Ela in 500 Class
Tomorrow (Friday) the Antioch lads will make another bid for a victory in the current league season in the high school gym when they entertain Ela, the smallest school in Lake county, which knocked off the Arlington Heights aggregation last week with a 34 to 19 count.

The Antioch "B" quint, which will play the Ela lights in the curtain-raiser, had a bad night with the Warren lights haunting them Friday evening into two overtime periods before succumbing 26 to 21. The Ela second likewise played two overtimes with the Arlington reserves before losing 23 to 21.

Grant Trimmed 35 to 13
Results of other conference games found Libertyville and Bensenville remaining on the top spot with Warren. Libertyville met up with the Grant Bulldogs, held the lanky Amann to a pair of field goals and cashed in a 35 to 13 victory. Bensenville remained in the undefeated column by scoring a 23 to 21 win over Waukegan in two overtime periods.

Lake Forest leaped back into a contending position by swamping Palatine 37 to 14. Leyden, one of the strongly rated squads, gave Barrington the small end of a 28 to 20 decision.

In the reserve games, Libertyville's wildcats won from Grant 38 to 17. Barrington eked out a 22 to 19 win over Leyden. Lake Forest outpointed the Palatine aggregation 18 to 13. Bensenville rolled over Waukegan 30 to 11.

League standings show Antioch, Arlington Heights, and Palatine without a conference win with the other six, excepting the three undefeated leaders, occupying the 500 per cent bracket.

S. H. Reeves, owner and proprietor of the establishment, reports that old Santa has made this stop for the past ten years and is looking forward to visiting the community again this year.

The dentists' records reveal the following: first grade—16 perfect out of 29; second grade, 10 out of 23; third grade, 10 out of 19; fourth grade, 18 out of 26; fifth grade, 20 out of 25; sixth grade, 9 out of 17; seventh grade, 19 out of 23; eighth grade, 19 out of 24.

The examinations have been the custom at the grade school twice each year for the last four years.

Antioch to Get Artillery Piece from Government

Mayor George B. Bartlett received notification this morning from the federal chief of ordnance that a ship-ping order has been issued, the government arsenal at Rock Island for a huge cannon to be placed on the old water tower foundation in Antioch.

The donation is a 5-inch British type field piece mounted on a gun carriage with ponderous wheels that make a 12-inch trend. The total weight of the cannon is more than six tons (12,133 pounds) and entails special equipment for moving it from Rock Island to Antioch.

Trustee James Stearns made inquiry into the donation some months ago which have resulted in the shipping order. It is expected that the cannon will arrive in Antioch within a few days.

FORMER CHAMPION TRAP-SHOOTER TO LEAVE ON TOUR

Jay R. Graham of Long Lake, former world's champion trap-shooter, and now a representative and demonstrator for the Hercules Powder Co., will leave the first of the year for Florida and other southern states where he will participate in shooting events as a representative of his company.

Graham won the world's amateur title at Stockholm, Sweden, where the international trap-shoot tournament was held in 1912. Shortly after acquiring this title which he held for four years, he turned professional when he became affiliated with the Hercules company. Recently he won the Chicago Daily News professional event over a field of 1,002 professional contestants.

His two sons own and operate the Land O' Lakes gun club at Long Lake, where many professional and amateur shooters gather for their favorite recreation. Many Antioch people visit the club regularly.

A.T.H.S. PLANS FOR COMMUNITY SOCIAL PROGRAM SATURDAY

High School Set to Entertain
Entire Community
with Novel Party

What is expected to be the biggest social event of the season is being planned by members of the Antioch Township high school who are entertaining everyone in the community at the high school Saturday evening.

Student committees have computed arrangements for music, dancing, refreshments and entertainments with social activities for old and young who gather.

The novel party will have Grifen's orchestra to play for those who desire the old-time dancing and a special band has been organized by Hans Von Holweide for the modern music dancers. Earl Horton is to call the dances for the old-timers.

A complete floor show is being organized as entertainment for the intermissions, according to Doris Edwards, chairman in charge, and while the refreshment plans are not fully completed, the Home Economics club girls intend to have ice cream and home made candy on the menu.

Miss Cornelia Roberts has prepared accommodations for at least fifteen tables of bridge and several for "500." Many attractive prizes have been secured for the winners at cards and a special prize for the evening has been selected, reports Bruce Dalgard, chairman of the special prize committee.

Christmas Seal Sale Lags In County; Still \$5,000 Short of Goal

A survey of the 1935 Seal Sale revealed that of the 13,000 letters sent out by the Lake County Tuberculosis Association on Thanksgiving Day only 4,670 have been heard from.

Of that number, only 1,791 have returned money. The Seal Sale total stands today at \$3,219.93. The goal set by the Association is \$8,000.

A great expense to the Association can be saved if those still retaining the seals will send in their contributions as soon as possible for otherwise a follow-up card or letter must be sent. It is urged that the seals be used generously on packages and greetings and the money forwarded to the office of the Association before Christmas.

If the chest clinics are to be increased from one to two a month in the coming year, it is imperative that the returns from the Seal Sale shall exceed the total return of last year. The Association feels this increase of clinics is very important if the great number of persons desiring a free chest examination at the clinic are to be taken care of.

Christmas Seals alone finance all the work of the Lake County Tuberculosis Association. The Association urges that you send in your contribution today.

Antioch Ping-pongers Outpoint Kenosha "Y" with 8 to 4 Advantage

Members of the local Paddle & Net Club scored a decisive win over the Kenosha Y. M. C. A. ping-pong club last Tuesday evening sending the Wisconsin men home on the short end of an 8 to 4 match score. Wm. Vo-Joe Panowski and Ray Sorans scored double wins for an early edge while Jack Panowski and Wilfred Jenerich split their matches to give the Antioch players an added two points.

A return match is scheduled for Jan. 3 with the Kenosha team and as both teams have almost the same lineups as last year the rivalry is doubly keen. The matches last year were even and this last match puts the Antioch team into the lead 2 to 1 so a hard return is anticipated at Kenosha.

Rotnour Troupe Gives "Why Some Men Don't Marry" at the Crystal

"Don't worry about it; go and find out for yourself just why some men don't marry," says J. B. Rotnour, manager of the Rotnour players who are presenting the farce comedy, "Why Some Men Don't Marry," at the Crystal theatre Friday night, and a which Antioch merchants are giving free tickets. Business houses listed in the Crystal are giving free tickets.

Large crowds continue at the Crystal each Friday night. Doors open at 7:30 and the play at 8:15. Next week the company will present "The Chiselers."

IMPORTING CATTLE

In light of recently completed reciprocity treaty between the United States and Canada, which promises to be a big campaign issue next year, it is of interest to note that cattle imports to the United States mounted sharply during October, the latest month for which figures are available. It is to be remembered that cattle are one of the farm products which are to be admitted under lower rates from Canada in the new treaty.

According to a report of the United States Department of Commerce, imports of cattle over the Canadian and Mexican borders during October totaled 32,246 head, the largest number since June. It is to be noted also that the number jumped from a little more than 14,000 head in September, and that the cattle imported in October a year ago numbered only 1,287.

In the first ten months of this year the United States imported 312,257 head of cattle, mostly from the Dominion of Canada and Mexico. This contrasts with a total number of 58,740 for the first ten months of 1934.

A great many of the cattle brought in, it is said, are feeders who are taking the place of the supply depleted last year by the AAA program, which was aided by the drought. Last year we slaughtered the cattle because there wasn't enough pasture in the West. This year there is plenty of corn and plenty of pasture, but the number of feeders is decidedly shy.

Of course, when the new Canadian treaty goes into effect we needn't worry much about a cattle shortage any more. If the AAA decides we have too many cattle and they should be slaughtered, and then it turns out we haven't enough cattle of our own, it will be comparatively easy to import 'em from Canada under the new arrangements. Not only will we be import-

ing livestock, but we shall be getting in dairy products, too. This will make it unnecessary for the farmers of the United States to produce as much butter and cheese as formerly. Then they can pay more attention to tap dancing, animal training and other phases of the more abundant life. There is nothing like a wise paternal government to figure these things out for us.

FACTS AND THEORIES OFTEN CLASH

During the last few years we have heard much of the so-called "new economics." This economics, which bears little resemblance to that developed by great thinkers of the past, has gained a large measure of public attention—and perhaps a large public following, by promising everyone almost everything that they can possibly desire.

In a recent address, Charles R. Gay, President of the New York Stock Exchange, looked at economics with the eyes, not of a visionary theoretician, but of a business man. And, in part, he said: All of us face our daily routine in two capacities. We are both hoarder and spender; consumer and producer; employer and employee; buyer and seller; tax payer and tax beneficiary. None of us prospers by exercising just one of these dual functions, but by balancing one against the other.

"When the new economists approached the problem of the depression and sought a solution . . . they made the mistake of believing that stimuli which produced a given set of results when one set of human characteristics is in the ascendancy, would produce the same results when the opposite set is in the ascendancy. It requires only a moment's thought to realize that this is not the case. When a manufacturer is working his plant full time and earning profits, he can readily advance his selling price, if such advance is justified by rising costs and a vigorous demand for his product. Under these conditions the higher price is not likely to reduce his volume of sales. But when that same manufacturer is running half-time, and at a loss, the result will be very different if he is forced by some outside agency to raise his prices. His volume of sales will immediately decline, his loss increase, and his ability to employ labor will diminish."

There is the basic fallacy of the kind of economics which attempts to "spend the nation into recovery," and attempts to achieve business stability by fiat, restrictive legislation or other artificialities. It may sound good—but it won't work.
